

I am an avid listener tot he K-Love radio station. I feel that is is imperitave to keep this station available on the airwaves. It has made a dramatic impact on the lives of myself and my children. Without this positive, christian station I would not be able to listen to the radio. I feel taht as a parent of two small impressionable children it is important to guard what goes into their ears and K-Love is the only station that I enjoy listening to that does not play songs or discuss topics that are not suitable for young ears. I would be very saddened if MY K-Love was removed from the air-waves.
